

### Reactions on Returning Back To School

Donjaleque Jackson

On Aug. 18, 1997 North Central High School opened their doors to students all over. Here are some of their reactions on coming back to school.

As a student at N.C.H.S. I am very excited because I am a part of the 97-98 Senior Class. Since this is my last year, I will make it my best.-Demetra Rideau

I was excited because I finally achieved the opportunity of being on top. Now I am a member of the Senior Class of 1997-98, and I am loving every minute. -Reginald Jackson (Drummajor 97-98)

I feel excited and eager to take on the task that I have set before me.-Shemike Johnson

I am happy to come back. This is my last year and hopefully to be my best year. Ya'll will see a lot of me. - John Quezada

I am excited because my summer was boring and I had nothing to do. I was happy to see my friends.-Victor Offord

I'm glad I came back to school because I'm a Junior. Next year will be my last year. - La'Keithia Bennett

### Who's New Among Us?

Donjaleque Jackson

This year we are welcoming four new teachers in to North Central High School. Mr. Damian Gordon, Mrs. Vanessa Taylor, Mr. H. Lamb, and Mrs. Page Knapp.

Mr. Damian Gordon, room 424, is a graduate of USL with a degree in public relations and a minor in English. He teaches 9th & 10th grade English and is a assistant coach, in basketball and football. He sees teaching as a challenge and is very optimistic about the 1997-98 school season.

A former police officer of Lafayette L.A., Mrs. Vanessa Taylor, room 416, is the head coach for both softball and the girls basketball team. Her goals are to help the ARE students to achieve their goals and take the girls basketball team to the playoffs. She loves teaching at North Central and enjoys the friendliness of the staff and students.

The 8th graders also have a new teacher, Mr. H. Lamb, room 444. He's a graduate of Southern University, and he has a BA in Elementary Ed., Masters degree+30 in Administration and Surpervision. His goal is to help this institution grow as a whole and for each student to believe that they could achieve his or her goals in life. We would like to congratulate Coach Lamb on his newly appointed job as North Central's Athletic Director. He is also the head baseball coach and the new head football coach. Good Luck!!

Mrs. Page Knapp, room 512, is the new art teacher. She loves art and would like to teach students to appreciate it. She is a graduate of Louisiana Technical University. She also taught at Farmerville Elementary and Crowley High. She loves the subject and the small classes.

### Trade School Christina Phillips

Get your career started early at WVS. This year at WVS there are many different fields offered. Courses at WVS for a two year program include air conditioning, construction, graphic arts (drafting), electricity, food services, mechanics, and welding. Courses that are offered within a one year program include office occupations and nursing. These courses are great for starting ahead for something you really want as a career. Here are some replies from our students at WVS.

I think that trade school is a good opportunity to get a jump start on your career. Even if you don't use your trade school training in your career, you can use it in every day life.-Suzanna Courville

It is a good experience for training us for our future jobs. -Mandy Johnson

It is very interesting and I hope to further my education in the course I am taking-Heidi Soileau

I've been enjoying trade school, but can't wait for the weekends to go out and have fun.-Stephanie Ducote

So, for all of you out there who don't like to come to school all day long, this may be just the thing for you.

## **New Computer Lab** Christina Phillips

Did you know that North Central's business department has received new and improved computers? These computer labs don't run cheap. The old labs were approximately \$75,000 and the new ones were approximately \$100,000. The new labs are IBM compatible. Every one of these new and improved computers will be connected to the Internet. Students in business classes will be able to use these computers for educational needs. Instead of using typewriters, we will now be using computers for our keyboarding classes. The money for these computers was contributed by the Carl Perkins Act. Each year this act supplies a different department with new supplies. These labs will be very useful and successful in many ways. They will change many of our business classes.

## **Foreign Languages** Jessica Ryder

This year any student taking a foreign language will better be prepared to work. The foreign language department has received new books for the Spanish and French classes. These books are much more challenging than the books that they had last year and they also come with videos. Mr. Honhon has decided to make French II and Spanish II a little more challenging. English will rarely be spoken in those classes.

French I and Spanish I students will start off speaking a little English, but they will soon learn the difficulty of speaking another language because later on in the year they will be speaking very little English. So, to all of the students taking a foreign language, you better start studying now, because it is going to be a fun year.

## **Teen Institute** Keisha Curette

Teen Institute is sponsored by and under the supervision of the Department of Health and Hospital, Office of Alcohol and Drug Abuse. It is a Substance Abuse Prevention summer program designed to empower young people to resist alcohol, tobacco, and other drugs (ATOD) use. It further empowers them to take an active role in preventing ATOD use among their peers.

Each year, high school students in grades 10-12 have an opportunity to stay one week, free of charge, at a state university. Some of the universities Teen Institute has been held at: Southern University, Baton Rouge; McNeese, Lake Charles; Nicholas State, Thibodeaux.

This year Ieshia Doucet, Cordese Shaw, Emma Adams, Tawanda Washington, Natalie Sanders, and Lynette Thomas attended Teen Institute and they all said it was a delightful experience.

## **North Central's Dazzling Dancers** Kristy Buie

This year is the second year that NCHS has had a dance team. These dancers add color and cheer to the football games, pep rallies, and basketball games. They also have lots of spirit that

rub off on some students! The dancers all train and practice really hard, but despite hard training they also have lots of fun. On July 24-27 the NC dance team went to dance camp at USL. All dancers placed 1st in each division. They earned a superior trophy and stick. Congratulations to Darlithia Malveaux-captain, Chauntiel Schexsnayder-co captain, Daffine McKnight, and Sharayna Carlin. Janean Prince and Daphne Cormier will also be part of this years 97-98 dance team. Hope you all will have a successful year!

## **Class of '98** Jessica Ryder

Can you believe it! Our senior year has finally arrived. It is hard to believe that this is our last year of high school. We are all anxious, but we will miss all of the good times. Here are a few of the seniors to tell you how they feel about their final year in high school.

I am glad that this year is finally here, I have been looking forward to this year all of my life. I am excited, but in a way I will miss all of my friends and teachers.  
-Neica Harrington

I am anxious to finish school, but I will miss all of the fun times that my friends and I had.  
-Christina Phillips

I have been waiting for this year all of my life. I feel great.  
-Keisha Curette

I feel good because I am getting out of school, and I am a little sad because I will miss the good times.  
-Miguel Fontenot

It seems that everyone is ready to get out of here, but we are all going to miss the good times that we had. We may all be anxious to get out of here, but we better enjoy this year while we can.

Kenneth Doucet

This summer the Upward Bound Students of North Central High School attended the University of Southwestern Louisiana (USL). The aspiration of this program is to let high school students get the feeling of college life during the summer.

I got a chance to discourse with Marcus Blueitt, Mildred Curette, Byrd Adams, and Miguel Fontenot about how the summer really was. These are a few of the students who attended the USL Upward Bound Program. They felt that it was an introduction to college life. The teachers were superb and looked after their personal needs

correspondingly. They studied math, English, reading, physical education, science, and a foreign language. These classes gave the students a headstart on the following year. Every last one of our North Central students I spoke to received a trophy or medal in two or three more classes. They were either received for outstanding work or tremendous improvement. While there, they not only received knowledge, but got to meet people who would presumably end up being life long friends. So I would like to congratulate our Upward Bound Students for a job well done.

## Congratulations!!!

## 'Cane Football

Heidi LeDoux

Last year our football team had a disappointing year. Well it seems this year things are different. Our football team has been training over the summer

and after school. Despite losing some players last year the team is really shaping up!

This year Guy Johnson is the starting quarterback, he said that he can get the job done. Marcus Bluitte is the captain this year and he feels that the upcoming season will be very successful because they have several returning starters for offense as well as defense. Marcus says that this year he will try to set a good example because without leadership the team would go nowhere.

Tyrone Labostrie, starting defensive end, will use his role as a senior to try and keep the team hyped. He also will try his best to teach the juniors and sophomores more about football and education.

Coach Lamb feels that this upcoming season will be very successful. This year the team hopes to be a contender in the playoffs.

You can check out the Canes schedule and catch them at various games. Good luck Canes!

## 'Cane Football Talk

Kenneth Doucet

This segment of the paper is a close-up look at how your NCHS football players feel about their season. In this segment I am talking with Marcus Bluiette a.k.a Double Deuce.

K.D. How do you feel about this football season?

M.B. I feel very good about the upcoming season. It will be very hard for us but we can go a long ways with hard work and determination. So I feel as though we can win a lot of games.

K.D. Being a four year football player, what do you expect of the other younger players?

M.B. Being a four year starter, I kind of expect a lot from my teammates. I try to lead by example.

K.D. What major roles do you play on offense and defense?

M.B. I play a major role on offense and defense. The whole offense runs through me. I'm pretty much involved in every play. Defensively I'm the middle linebacker and I have to make all the calls and everything, so I'm very much involved on both sides of the ball.

K.D. Do you feel that you all could make it to the playoffs or even go all the way to the dome?

M.B. Yes. You have to be a positive person. I think with hard work and determination, and with the help of the Lord

## Lady 'Canes

by Keshia Curette

The volleyball team is making a headway for themselves as they dominate the court with their expertise and talent. Mrs. Ned is right behind them with the experience to help them be the best on and off the court. These young ladies work hard and have shown Church Point bears on September 4, 1997 that they meant business when they stepped on the floor and left them with a score of 15-12 (Canes) in the first match and another victory in the second match, 15-7. The Lady 'Canes then took their skills and presented the Northwest Raiders with a defeat of 15-3 in the first match and 15-9 in the second match. On

September 16, 1997, the volleyball team then continued their winning streak with no need for home court advantage and gave the Church Point Bears another defeat. The 'Canes stomped the Bears with a score of 15-1 in the first match, and in the second match a score of 15-7. Congratulations!!

## Seniors' Plans After High School

Donjaleque Jackson

Are you wondering what are some of the senior plans after high school? Well I went around school and asked a couple of seniors what were some of their plans after graduating from high school.

I plan to go to Grambling State University, in the fall of "98". My major will be Business Management. Over the summer I would like to find a nice paying job so that I can get a car ( I can't be rolling on foot).

-Sharayna Carlin

I, as a senior getting fresh out of high school, plan to go to Avoyelles Technical Institute. My major would be L.P.N. (License Practical Nurse).

-Rose Gray

I plan to join the United States Air Force and major in Human Resources.

-Tyronnica Christmas

I will attend a school of Cosmetology.

-Racquel Clayton

Soon I will be moving to Houston, Texas to work at one of the United States Postal Office.

-Bradley Boyd

The name of my college is still undecided, but I would like to attend one under the major of Coaching.

-Keith Johnson

Morehouse College is were I will be soon going. My major will be in Electric Engineering.

-Kenneth Doucet

I plan to join the National Guard Reserves while attending Southern University. My major will be in Physical Education. Then I will live out my dream of becoming a certified coach.

-Eric Nelson

I plan to join the United States Marines and major in Computer Engineering after my 5 year enlistment.

-Michael Sanchez

Newspaper Staff-Kristy, Christina, Donna, Heidi, Kenneth, and Keisha

Community Coffee Product to  
Mr Martel.

## Goodbye Reynard, Hello Reg!

Heidi LeDoux

This year North Central has many new things to offer to students. A new drum major is one of them. If you thought Reynard was good, wait until you see Reg in action!

Reginald Jackson, the new 97-98 drum major, says he has always loved to dance, even as a little child. He said "It's just a rhythm that God gave to me." When he dances, he dances to enjoy himself, while bringing a little excitement to the students.

Reg said, "Being drum major is like trying out for any other sport in school. You have to train hard, and you have to be in great shape. I really love what I'm doing, so I don't think about how hard the job is. Being drum major is something that I wanted very badly. I worked hard to get where I am, and I don't regret any of it."

## Artificial Roses

Betty Sue

You run away from your problems.  
Inside your heart you hide  
Because someone just kissed your lips  
and told you goodbye.

Now how do you go on?  
How do you get over the love that you have shown?  
Will it just fade away with time  
Or will it go on living with every tear drop that falls?

You knew he had to leave;  
You knew he had to part.  
You could have saved yourself a lot of grief  
If you would have just ended it from the start,  
But you had to go on loving  
'til he told you to stop.

You try to tell your heart  
It's time to find another,  
But it won't listen.  
You tell yourself to stop looking at his pictures.  
That face you have to hide.  
You can't let anyone know you still love him.  
So inside your room you cry,  
And you let the little girl out  
That you have hidden deep inside.

Your tears flow freely  
Onto the pictures he left behind.  
As you pick up the roses he once gave to you,  
You finger them so gently  
Because they are memories you never have to lose  
And as you look at the roses,  
You know that like those artificial roses  
True love never dies.
